Our Reviews

Shayeri Sarkar

Had a wonderful experience with Elysian Design Studio. They delivered a very tight deadline project taking complete ownership. Highly professional and very creative, they understood the pulse of what I wanted from day 1. Arijit and Susmita are very nice people to work with. Highly recommended!

Sourav Kumar Agarwal

Elysian designed and executed the interior design of our home in Bangalore in Oct 2023. Susmita and Arijit were very professional and highly engaged during the process. It took us 2.5 months to complete the work, and it was well within the time which they promised at the start. They were very patient during the whole time, incorporating and discussing in detail every little thing we proposed or asked to change. They accommodated where needed, but also pushed back when they felt something does not work, and at the end, the result was well worth it. Highly recommend consulting with Elysian.
